The Honorable Lane Dwinell  
Governor of New Hampshire  
Concord, New Hampshire

Dear Governor Dwinell:

Mr. Wyman has discussed with me your letter of April 13, 1956, concerning the amount of legal services which the Industrial Park Authority may expect from this office and has directed that I reply.

It is our view that as with the case of other state agencies we can supply all of the legal services that the Authority may reasonably be expected to require. It is supposed that the services needed will be general in nature, covering land transactions, financing and contractual relationships. We believe that we can schedule the rendition of these and related services at the convenience of the Authority.

Very truly yours,

Warren E. Waters  
Deputy Attorney General

WEW/aml

George S. Pappagianis, Attorney General  
June 16, 1967  
Page 2

The possibility is suggested that Governor and Council could well direct that all legal matters pertaining to the Industrial Park Authority be referred by that agency to this office. Perhaps the threat of such action might well negate any move by the Industrial Park Authority to by-pass this office.

Concerning requested attendance at monthly meetings, I think this is a device to attempt to demonstrate the need for private counsel; I regard it as without merit and the setting of a bad precedent should we comply.

I would suggest, in response to any "invitation" that we reply that when requested in writing by the Authority we shall render a legal opinion on any question of law, not based on hypothetical facts, citing RSA 7:8.

William F. Cann
